## RESEARCH POSITIONS

|                                      |                                                                                                                                                                                                                                                           |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Current position<br>10/2025 – 9/2028 | <b>Fixed-term Assistant Professor (RTD-A)</b> at the School of Advanced Studies IUSS Pavia, within the FIS (Italian Science Fund) project <i>Severe Uncertainty: Decisions, Evidence and Probability</i> (DeEP, CUP I53C25000600001).                     |
| 3/2024 – 9/2025                      | <b>Postdoctoral Research Fellow</b> at the University of Eastern Piedmont “Amedeo Avogadro”, within the project <i>Conceptual Negotiation: Metaphysical and Logical Aspects</i> (Next Generation EU, ID: P20225A73K). Supervisor: Prof. Samuele Iaquinto. |
| 3/2023 – 2/2024                      | <b>Postdoctoral Researcher</b> (Wissenschaftlicher Mitarbeiter) at the University of Bonn (Germany), within the project DFG (Deutsche Forschungsgemeinschaft) <i>Abductive Methodology in the Philosophy of Logic</i> . Supervisor: Prof. Elke Brendel.   |
| 4/2022 – 2/2023                      | <b>Postdoctoral Research Fellow</b> at the University of Padua, within the project <i>Logic for polarization of irrational collective beliefs</i> funded by Fondazione Cariparo. Supervisor: Prof. Massimiliano Carrara.                                  |

## EDUCATION

|                  |                                                                                                                                                                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10/2018 – 3/2022 | <b>PhD in Philosophy</b> at the University of Padua (Italy). Supervisor: Prof. Massimiliano Carrara. Research topics: logic, philosophy of logic, philosophy of science and metaphysics. Title of dissertation: <i>Gluons, rejection, and other dialetheic issues: new perspectives</i> . Date of defense: 13/10/2022. |
| 1/2022 – 3/2022  | <b>Research visit</b> at the City University of New York (United States) during the Ph.D. Supervisor: Prof. Graham Priest.                                                                                                                                                                                             |
| 9/2014 – 7/2018  | <b>BA in Philosophy</b> at the University of Padua (Italy). Supervisor: Prof. Massimiliano Carrara. Title of dissertation: <i>Counterfactual Conditionals and Laws of Nature</i> .                                                                                                                                     |
| 8/2008 – 7/2011  | <b>MSc in Astrophysics and Cosmology</b> at the University of Bologna (Italy). Supervisor: Prof. Francesco R. Ferraro. Title of dissertation: <i>Galactic Globular Cluster NGC 6218 (M12)</i> .                                                                                                                        |
| 1/2010 – 9/2010  | <b>LLP Erasmus Programme</b> at the University of Granada (Spain), Department of Theoretical Physics.                                                                                                                                                                                                                  |
| 9/2004 – 10/2007 | <b>BSc in Physics</b> at the University of Ferrara (Italy). Supervisor: Prof. Francesco L. Villante. Title of dissertation: <i>Solar Neutrinos and Standard Solar Models</i> .                                                                                                                                         |

## TALKS AND EVENTS ORGANISED

- |                          |                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Organiser<br>and speaker | <b>Symposium <i>New Directions in the Philosophy of Risk</i></b> , as part of the conference <b>ECAP12</b> (12th European Congress of Analytic Philosophy), held at Universidad Complutense de Madrid, Madrid (Spain), 24–28 August 2026. Title of the talk: <i>Dominance and Independence in Spohn’s Decision Theory</i> . Other speakers: Claire Field, Jaakko Hirvelä, and Malvina Ongaro. |
| Organiser<br>and speaker | <b>Triennial Conference SILFS 2026, <i>Thinking the Future with Logic and the Philosophy of Sciences</i></b> , organised by the Italian Society for Logic and the Philosophy of Science (SILFS), at the School of Advanced Studies IUSS Pavia, Palazzo del Broletto, Pavia, 29 June–2 July 2026. Title of the talk: <i>Dominance and Independence in Spohn’s Decision Theory</i> .            |
| Invited<br>speaker       | <b>Workshop <i>Perspectives in the Philosophy of Risk</i></b> , Politecnico di Milano, Milan, 16 December 2025. Talk title (with Ciro De Florio and Aldo Frigerio): <i>Uncertainty and Normal Risks</i> .                                                                                                                                                                                     |
| Organiser                | <b>CONNECT Workshop in Logic and Epistemology</b> , held at the University of Eastern Piedmont “Amedeo Avogadro”, Vercelli, 6–7 October 2025. Invited speakers: Timothy Williamson, Gil Sagi, Filippo Ferrari, Giada Fratantonio, Ali Hasan, Andrea Iacona, and Caterina Sisti.                                                                                                               |
| Invited<br>speaker       | <b>Phil WIP Research Workshop</b> , Yonsei University (Underwood International College), Seoul (South Korea), 12 May 2025. Title of the talk: <i>Modeling Radical Indeterminacy in Branching Time Semantics</i> .                                                                                                                                                                             |
| Invited<br>speaker       | <b>Doctoral seminar</b> as part of the joint PhD programme in <i>Food, Health and Longevity</i> , jointly organised by the University of Eastern Piedmont and the University of Turin, Novara, 4 March 2025. Title of the talk: <i>Abductive Reasoning in the Empirical Sciences</i> .                                                                                                        |
| Organiser<br>and speaker | <b>CONNECT Workshop in Logic and Metaphysics</b> , held at the University of Eastern Piedmont “Amedeo Avogadro”, Meeting Room 2, Palazzo Tartara, Vercelli, 19 February 2025. Title of the talk: <i>The Logical Form of Fractional Counting Sentences</i> .                                                                                                                                   |
| Organiser                | <b>Inaugural Workshop of the Association for Analytic Metaphysics in the Italian-Speaking World (AMAMI)</b> , at the University of Eastern Piedmont, Rectorate Building, Conference Room, Vercelli, 18–19 December 2024. Invited speakers: Kit Fine, Jessica Wilson, Matteo Morganti, and Elisa Paganini.                                                                                     |
| Organiser                | <b>Winter School in Analytic Metaphysics</b> , organised by AMAMI at the University of Eastern Piedmont, Rectorate Building, Conference Room, Vercelli, 20 December 2024. The event was attended by approximately 50 undergraduate and graduate students from several Italian universities.                                                                                                   |

- Speaker **BoBoPa Seminar**, seminar of the BoBoPa Research Cluster (Bologna–Bonn–Padova), held online on 24 June 2024. Title of the talk: *An Overview of the Adoption Problem*.
- Invited speaker **Forschungskolloquium der Seniorprofessur Gerhard Schurz**, Institut für Philosophie, Heinrich-Heine-Universität Düsseldorf, Düsseldorf (Germany), 12 December 2023. Title of the talk: *Logical Abductivism on Abductive Logic*.
- Invited speaker **Philosophy of the Formal Sciences Workshop**, University of Padua, Padova, 4 December 2023. Title of the talk: *Logical Abductivism on Abductive Logic*.
- Organiser **Rhine-Ruhr Epistemology Annual Meeting 2023**, University of Bonn, Bonn (Germany), 1 June 2023.
- Speaker **BoBoPa Seminar**, seminar of the BoBoPa Research Cluster held online on 13 November 2023. Title of the talk: *Logical Abductivism on Abductive Logic*.
- Selected speaker **15th Conference of the Italian Society for Analytic Philosophy (SIFA), Who Is Afraid of Philosophy? New Challenges for Contemporary Society**, University of Eastern Piedmont “Amedeo Avogadro”, Palazzo Borsalino, Alessandria, 7–9 September 2023. Title of the talk: *Logical Abductivism on Abductive Logic*.
- Selected speaker **Inductive Metaphysics Final Conference, Inductive Metaphysics: Insights, Challenges, and Prospects**, Heinrich-Heine-Universität Düsseldorf, Düsseldorf (Germany), 9–11 August 2023. Title of the talk: *On Justifying and Explaining Abduction*.
- Selected speaker **FOUST VII – 7th Workshop on Foundational Ontology**, as part of the conference FOIS 2023, Université de Sherbrooke, Sherbrooke, Québec (Canada), 19–20 July 2023 (online participation). Talk title (with Massimiliano Carrara): *A Meta-Ontological Inquiry on Topics for Non-Topic-Neutral Logics*.
- Selected speaker **PhilArg – Philosophy of Argumentation Workshop**, as part of the **8th International Conference on Philosophy of Language and Linguistics (PhiLang 2023)**, University of Łódź, Łódź (Poland), 12–14 May 2023. Title of the talk: *On Convincing and Persuading*.
- Speaker **BoBoPa Seminar**, seminar of the BoBoPa Research Cluster held online on 18 January 2021. Title of the talk: *The Logical Form of Fractional Counting Sentences*.
- Speaker **Doctoral seminar in ethics**, 18 March 2020, Padova, Department of Philosophy, Sociology, Education and Applied Psychology (FISPPA), University of Padua. Title of the talk: *Revised deontology. Onora O’Neill about justice and virtue, autonomy and trust*.
- Selected speaker **2020 Annual Conference of the Philosophical Society of Southern Africa (PSSA)**, organised by the University of KwaZulu-Natal at the Fern Hill Hotel, Howick, KwaZulu-Natal (South Africa), 13–15 January 2020. Title of the talk: *On the Overlap between Everything and Nothing*.
- Speaker **Doctoral seminar in ethics**, 22 May 2019, Padova, FISPPA Department, University of Padua. Title of the talk: *Moral exemplarism and ‘the problem of living’ in the contemporary thought*.

## TEACHING

---

- AY 2025/26 **Lecturer** of the doctoral course **Ethics, Technology and Philosophy** at the School of Advanced Studies IUSS Pavia: a 10-hour course for Hadron Academy doctoral students.
- AY 2025/26 **Lecturer** of **Epistemology, Logic and Informal Reasoning** at the University of Pavia: a 36-hour course for students in the Master's degree programme in Psychology, Neuroscience and Human Sciences, Department of Brain and Behavioural Sciences.
- AY 2025/26 **Lecturer** of **Philosophy and Ethics of Technology in Medicine** at the University of Pavia: a 24-hour course for Medicine and Surgery students in the MEET excellence programme (Medicine Enhanced by Engineering Technologies).
- AY 2025/26 **Adjunct Lecturer** (with Professor Massimiliano Carrara) of **Argumentation, Critical Thinking and Informal Logic** at the University of Padua: a 42-hour course (21 hours taught by me) for students in the Classics and Modern Literature degree programmes, Department of Linguistic and Literary Studies (DISLL).
- AY 2025/26 **Adjunct Lecturer** for **History and Philosophy of Science** at the University of Padua: a 40-hour course for students in the Master's degree programme in Rehabilitation Sciences for Health Professions, Department of Cardiac, Thoracic and Vascular Sciences and Public Health (DSCTV).
- AY 2024/25  
AY 2023/24
- AY 2025/26 **Adjunct Lecturer** for **Philosophy of Language** at the University of Padua: a 30-hour course for students in the Master's degree programme in Rehabilitation Sciences for Health Professions, DSCTV Department.
- AY 2026/27 **Lecturer** in **Critical Thinking** at Bocconi University (Milan, Italy): three 16-hour seminars for three different classes in the Economics and Finance degree programmes. Position: **Academic Fellow** at Bocconi University.
- AY 2025/26  
AY 2024/25
- AY 2023/24 **Lecturer** of **Contradictions, Paradoxes and the Limits of Thought** at the University of Bonn: a 30-hour block seminar for Master's students in Philosophy.
- AY 2024/25 **Lecturer** in **Argumentation Theory** at the University of Padua: a 10-hour seminar for students in the Law and Economics degree programme, Department of Political Science, Law and International Studies (SPGI).
- AY 2023/24  
AY 2022/23  
AY 2021/22  
AY 2020/21
- AY 2023/24 **Lecturer** of the **Workshop in Principles of Argumentation** at the University of Padua, comprising 18 hours for students in the Classics and Modern Literature degree programmes, DISLL Department.
- AY 2022/23
- AY 2022/23 **Lecturer** in **Logic** at the University of Padua: a 28-hour course for students in the Philosophy degree programme, FISPPA Department.
- AY 2022/23 **Lecturer** for the **Critical Thinking** seminar at the University of Padua: a 12-hour seminar for undergraduate Philosophy students, FISPPA Department.

## THESIS SUPERVISION AND EXAMINATION

|                   |                                                                                                                                                                                                                                                                                                                        |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Thesis examiner   | Examiner for the theses of <b>Nicolò Taglietti</b> and <b>Rachele Cavarsaschi</b> , defended at the School of Advanced Studies IUSS Pavia on 12 May 2026.                                                                                                                                                              |
| Thesis supervisor | <b>Raffaele Barera</b> , Master's thesis in Rehabilitation Sciences for Health Professions, University of Padua. Title of dissertation: <i>Knowledge of the Scientific Method and Reasoning in Physiotherapy</i> . Thesis defended on 6 March 2025.                                                                    |
| Thesis supervisor | <b>Giovanni Carrossa</b> , Master's thesis in Rehabilitation Sciences for Health Professions, University of Padua. Title of dissertation: <i>Development of an Automated and AI-Integrated Tool for the Evidence-Based Classification of Orthopedic Telerehabilitation Exercises</i> . Thesis defended on 3 July 2025. |

## QUALIFICATIONS AND AWARDS

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 06/2026 | Awarded the <b>Italian National Scientific Qualification (ASN)</b> for the role of Associate Professor in competitive sector 11/C2 – Logic, History and Philosophy of Science, corresponding to the current academic recruitment field 11/PHIL-02 – Logic, History and Philosophy of Science and Technology.                                                                                                                                                         |
| 05/2025 | Awarded a two-year <b>JSPS Postdoctoral Fellowship</b> from the Japanese Society for the Promotion of Science (JSPS) for the research project <i>From Physical to Manifest Time and Back: A New Approach to Solving the Duality of Time</i> , to be carried out at Sophia University in Tokyo (Japan). Fellowship ID: P25743. Fellowship declined following my appointment as a fixed-term Assistant Professor (RTD-A) at the School of Advanced Studies IUSS Pavia. |
| 02/2025 | Awarded the <b>Seal of Excellence</b> by the European Commission for the project B-thePoT ( <i>B-Theoretical Passage of Time</i> ), submitted under the 2024 Marie Skłodowska-Curie Actions call, <i>Global Postdoctoral Fellowship</i> , with a score of <b>92,8/100</b> .                                                                                                                                                                                          |

## RESEARCH PROJECTS

|             |                                                                                                                                                               |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025 - 2028 | DeEP project, <i>Severe Uncertainty: Decisions, Evidence and Probability</i> (Principal Investigator: Luca Zanetti).                                          |
| 2020 - 2023 | BIRD project, <i>Epistemic virtues and knowledge. Investigating and promoting effectiveness in inquiry</i> (Principal Investigator: Giuseppe Mario Spolaore). |
| 2020 - 2024 | Fondazione Cariparo project, <i>Polarization of irrational collective beliefs in post-truth societies</i> (Principal Investigator: Massimiliano Carrara).     |

|             |                                                                                                                                                                                                          |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2021 - 2022 | BIRD215957/21 project (University of Padua), <i>The semantics of belief change: theory and applications</i> (Principal Investigator: Massimiliano Carrara).                                              |
| 2021 - 2023 | DOR2195235/21 project (University of Padua), <i>On Logical Neutrality</i> (Principal Investigator: Massimiliano Carrara).                                                                                |
| 2022 - 2024 | DOR 2022 project (University of Padua), <i>On Logical Neutrality. Part II</i> (Principal Investigator: Massimiliano Carrara).                                                                            |
| 2023 - 2024 | DFG ( <i>Deutsche Forschungsgemeinschaft</i> ) project at the University of Bonn, <i>Inductive Metaphysics</i> (grant no. FOR 2495; Principal Investigator: Elke Brendel).                               |
| 2024 - 2025 | PRIN 2022 PNRR Project (University of Eastern Piedmont), <i>Conceptual Negotiation: Metaphysical and Logical Aspects</i> (Next Generation EU, ID: P20225A73K; Principal Investigator: Samuele Iaquinto). |

## SERVICE TO THE ACADEMIC COMMUNITY

|                       |                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Editorial appointment | <b>Guest Editor</b> , with Massimiliano Carrara, Samuele Iaquinto, and Ben Martin, of the Topical Collection “Paradoxes, Theory-Choice, and Logic: Themes from Priest”, <i>Synthese</i> (in preparation; appointment commenced in 2026).                                                                                                                                                                                       |
| Editorial appointment | <b>Guest Editor</b> , with Massimiliano Carrara, Samuele Iaquinto, and Ben Martin, of the Special Issue “Non-Classical Metaphysics: New Perspectives”, <i>Philosophical Studies</i> (in preparation; appointment commenced in 2026).                                                                                                                                                                                           |
| Peer review           | <b>Anonymous reviewer</b> for the following academic journals, including repeat reviews for some titles: <i>Journal of Philosophical Logic</i> , <i>Theoria</i> , <i>Argumenta</i> , <i>Synthese</i> , <i>Informal Logic</i> , <i>APhEx</i> , <i>Philosophical Studies</i> , <i>East Asian Journal of Philosophy</i> , <i>Filosofia Morale/Moral Philosophy</i> , <i>Verifiche</i> and <i>Croatian Journal of Philosophy</i> . |

## ACADEMIC ROLES AND AFFILIATIONS

|                      |                                                                                                                                                     |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Association role     | <b>Treasurer and member of the Scientific Committee</b> of the Association for Analytic Metaphysics in the Italian-Speaking World ( <b>AMAMI</b> ). |
| Research affiliation | <b>Member of Noûs</b> , research group in analytic philosophy at the University of Padua.                                                           |

## ADDITIONAL ACTIVITIES

|                       |                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Digital communication | <b>Design and development of the website</b> of the Association for Analytic Metaphysics in the Italian-Speaking World (AMAMI) ( <a href="http://www.amami-philosophy.com">www.amami-philosophy.com</a> ) and creation of its social-media profiles (May 2024). Since then, responsible for managing, updating, and maintaining its digital content for the Association. |
| Teaching resources    | <b>Design, recording, and editing of eight video lectures</b> on propositional and first-order logic (February–April 2021), freely available on YouTube.                                                                                                                                                                                                                 |

## OUTREACH ACTIVITIES

---

- 13/1/2023 **Two-hour training seminar** delivered in Italian, entitled *Logic in the Classroom*, for teachers at Istituto Superiore “Rolando da Piazzola”, Piazzola sul Brenta (Padua). On the same day, I also delivered a **workshop** on cognitive biases for three classes at the same school.
